

TOGETHER FOR A BETTER FUTURE

**ZHANGJIAKOU XUANHUA JINKE
DRILLING MACHINERY CO., LTD
(JK DRILLING)**

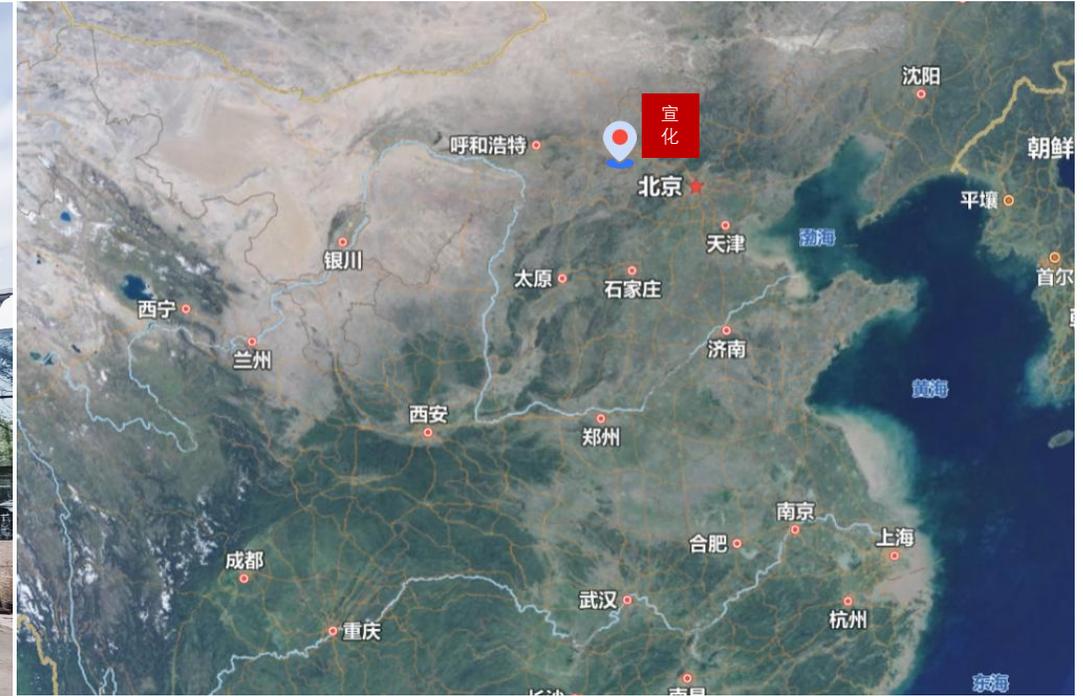

ALWAY FOR YOUR BETTER DRILLING FEELING

/01

Company Profile

Established on Oct.1, 2005
More than 300 employees
Over 30 models of dth drill rigs

Located in hometown of dth drill rig - Xuanhua
Air compressor integrated drill rigs' market share is 25%
While drill rig-air compressor separated typereach to 60%

■ Blast hole drill rig introduction

Main models are

CL351, JK358, JK410, JK520, JK580, JK590, JK650, JK730, JK810, JK820, JK830

The above drill rigs are used for earthwork excavation and blasting projects such as large, medium and small mines, hydropower, transportation, national defense projects, etc., and can also be used for underwater rock drilling and blasting operations such as port channels.

Water well drill rigs introduction

THE MAIN PRODUCTS ARE JKS300SERIES, JK400SERIES, JK500SERIES, JK600SERIES, JK800SERIES, JK1000, JK1500SERIES AND OTHER WATER WELL DRILLING RIGS, WHICH ARE USED FOR DRILLING WATER WELLS, FARMLAND DROUGHT RESISTANCE, INDUSTRIAL WELLS, GROUND TEMPERATURE AIR CONDITIONING HOLES, ETC.

THE DEVELOPMENT HISTORY OF JK BLAST HOLE DRILL RIG

CL351 series

The first generation

Year 2005-----2015

CL351 full air driven drill rig

JK358 series

The second generation

Year 2008-----2017

Crawler mounted semi-hydraulic dth drilling rig is powered by diesel engine (electric motor)-hydraulic oil pump, which reduces the requirements for air compressors

JK590 series

The third generation

Year 2012-----now

On the basis of the second-generation, the engine power is increased, the strength of all body parts is reinforced, the configuration of the hydraulic system is comprehensively improved, the drilling efficiency is improved.

JK730 series

The fourth generation

Year 2016-----now

JK730 is the latest generation of dth drill rig manufactured in 2016. It realizes the function of automatic connection and unloading of rods. It is equipped with a cab, reversing image, air conditioner, real-time monitoring of the drill arm angle, etc. It can also be operated by remote control, realizing the intelligence and humanization of dth machinery.

THE DEVELOPMENT HISTORY OF JK BLAST HOLE DRILL RIG

JK Drilling and Atlas Copco have cooperated deeply again, and the latest generation of integrated machines JK650 series, JK810 series and JK830 series have been launched one after another.
